

## Storybags? What are they?

READ Saskatoon houses an extensive selection of Storybags available to be loaned out to daycares, schools, home educators and organizations to use in their own family literacy programs in Saskatoon and region. Our Family Literacy Director can visit your program to show you, your staff and parents how to use a Storybag or suggest ideas to compliment your theme!

Each Storybag contains a children's book (min 6 copies to be used by parents), props, puppets or back drop to retell the story, activities (colouring pages, games and crafts, non-fiction materials, snack ideas and activity suggestions related to the theme of the book) and parent handouts.

Storybags can be used for toddler ages to grade 8 and can be incorporated into any theme. They are a wonderful tool for families of all literacy levels to enjoy stories together and to help create stories to come alive.
